

Model 8020

12-9/16" Pouch Laminator

The 8020 12-9/16" pouch laminator is the work-horse of pouch laminators. Designed to meet high volume laminating needs, the 8020 has a laminating speed of 33 inches per minute and accommodates pouches up to 10mil in thickness. It features an adjustable temperature dial to quickly adjust to different mil thicknesses, an external thermostat for precise heating, a quick 3-5 minute warmup time, and an advanced solid-state hot roller design to heat and compress lamination simultaneously providing for perfect lamination with each use. The 8020 comes with an industry leading five year warranty.
