

Tamerica 240EPB Comb Binding Machine

The Tamerica 240EPB is an electric punch, heavy duty comb binding machine that can punch and bind documents up to 14 inches allowing for legal size document comb binding. The open end throat design enables the punching of even larger size papers. The easy-to-use Tamerica 240EPB comb binding machine is designed with several features to make your binding projects seamless. All die pins are fully disengageable for the occasional odd size binding projects. The 4-step punch depth control will allow your presentations to last longer with a stronger bind. A side margin control will ensure proper paper alignment. The Tamerica 240EPB Wire Binding Machine is a heavy duty all metal constructed wire binding system that includes a One Year Limited Manufacturers Warranty!
