

Tamerica TCC-210EPB Comb Binding Machine

The Tamerica 210EPB Plastic Comb Binding Machine is the electric punch version of the Tamerica PB210 model. The 210EPB features all 21 disengageable pins allowing you to perfectly punch any size presentation, manual, proposal, report, etc. The hollow ground punch pins are self sharpening ensuring a longer lasting perfect punch life. The electric punch is operated with the simple push of a button. The 12 inch punch throat is open ended for larger size documents. To bind larger size presentations the binding handle can be repositioned. The side margin control ensures perfect center aligned paper. The Tamerica 210EPB Plastic Comb Binding Machine is constructed of heavy duty metal. It features a large waste drawer for the punched paper chips. The Tamerica 210EPB Plastic Comb Binding Machine is perfect for medium volume office and school use.
