

Tamerica TCC6000 13” Pouch Laminator

The Tamerica Tashin TCC 6000 Photo Pouch Laminator is a heavy-duty laminator designed for continuous use. The advanced features allow for perfect bubble free lamination of photos and digital images. The advanced hot roller system with an adjustable speed control ensures quality and trouble-free operation. The TCC 6000 comes complete with a reverse function and solid-state digital temperature controls.

Just insert your photo or document into the laminating pouch, place it in the special carrier and feed it into the laminator. In seconds your piece will be permanently sealed and preserved. The heat plates are made of extruded aluminum to guarantee a good and consistent heat distribution, using 4 silicon rollers eliminates the need for carriers. Adjusts quickly to the exact temperature you desire.

Features

The Tamerica TCC6000 13" Pouch Laminator offers carefully designed features intended to quickly get you up and running. The easy-to-use design makes the operator's job simpler with features such as:
