

GMP Excelam Swing 1100/1670 45"/65" Heated Roller Roll Laminator

The Excelam Swing Series are wide format laminators designed to offer a user-friendly, high quality, cost effective laminating solution ideal for schools and offices, as well as copy and print shops. The Swing Series incorporates top and bottom heated rollers with independent heat controls allowing for single sided laminating, encapsulating, and cold laminating. These machines feature a roller gap control to allow for up to 1/2" mounting, a user friendly keypad that allows the operator to easily adjust speed and temperature, auto shutoff and standby functions for energy efficiency, swing film shaft for easy loading, programmable settings and more! The features along with its comprehensive system ensures a professional finishing job, thermal or cold, every time.
