

Tamerica TCC2700XM 27" Roll Laminator

The TCC 2700XM - 27" Extra Mount Roll Laminator is a versatile heavy duty, all-metal construction laminator that allows for both one and two sided laminating as well as mounting. It can laminate posters, charts and other classroom or office materials up to 27 inches in width using film up to 10mil in thickness. With four heated rollers, the TCC 2700XM provides even heat for quality laminating every time. This machine also features a 1/4" mounting capability, variable speed and temperature control, auto shutoff, feed tray and front shield sensors, on/off switch for bottom roller heat, rear slitter and more.

The heavy duty motor will guarantee years of quality laminating. A lamination speed of approximately 8.8 feet per minute makes the TCC 2700XM roll laminator ideal for laminating users that continually need to feed smaller documents into their laminator.
